

IPR Cell

1. Description of the Committee:

The IPR Cell is a dedicated unit within MEASI Institute of Management that promotes and facilitates the protection and commercialization of intellectual property rights generated from research and innovation activities conducted by faculty, students, and staff.

2. Purpose of the Committee:

To create awareness about intellectual property rights, provide guidance and support for securing patents, copyrights, trademarks, and other forms of IP protection, and foster an ecosystem that encourages knowledge creation and innovation.

3. Objectives of the Committee:

- To conduct seminars, workshops, and training programs on IPR-related topics for faculty, students, and staff.
- To assist researchers in identifying patentable inventions and guide them through the patent application process.
- To facilitate the commercialization of patented technologies through licensing or technology transfer agreements.
- To maintain a repository of intellectual property generated within the institute and ensure proper documentation and protection.
- To establish collaborations with industry partners, research organizations, and government agencies for knowledge sharing and resource utilization in IPR-related matters.

4. Committee Members/ Composition:

S. No.	Name of Faculty	Designation	Committee Designation
1	Dr. Farhath Kan	Director	Chairperson
2	Dr. Catherine Julie Aarthy. C	Assistant Professor	Member
3	Dr. Sindoor Kannapan	Assistant Professor	Member
4	Dr. Priyadharshini	Assistant Professor	Member

5. Roles and Responsibilities of Members:

- Chairperson: Oversee the overall functioning of the IPR Cell, conduct meetings, and coordinate with relevant stakeholders.

- Members: Assist in organizing IPR-related events, provide guidance to researchers, evaluate patent applications, and maintain records.

6. Frequency of Meetings:

The IPR Cell shall meet at least once every quarter, or more frequently as required, to discuss ongoing activities, review patent applications, and plan future initiatives.

7. Procedure:

(Sequential steps for each of the activity carried out by the committee/cell and Flow Chart)

- a. Identify potential inventions and innovations from research projects, student projects, or faculty endeavors.
- b. Evaluate the novelty and commercial viability of the identified intellectual property.
- c. Assist the inventors/creators in drafting and filing patent / copyright applications or securing other forms of IP protection.
- d. Facilitate the commercialization of patented technologies through licensing agreements or technology transfer.
- e. Organize awareness programs, workshops, and training sessions on IPR-related topics for the institute's community.
- f. Maintain a comprehensive database of intellectual property generated within the institute.
- g. Collaborate with external organizations, industry partners, and government agencies for knowledge sharing and resource utilization.
- h. Prepare periodic reports on the activities and achievements of the IPR Cell.
